Math:

Collect the details from your parents or relatives and fill the tabular column given below. One has been done for you:

Type of Vehicle Two/ Four Wheeler	Vehicle Name	Vehicle Number	Year of Purchase	Cost of the Vehicle	Petrol / Diesel/ Any	Mileage per litre	Maintenance Once in ___ Months/ Year
Four wheeler	WagonR	TN 27 3456	2016	Rs. 5 Lakh	Petrol	20 Km	12 Months

Note:

Mileage : No. of Kilometres the vehicle gives per litre

- Find out the total amount spared in your family to purchase vehicles.

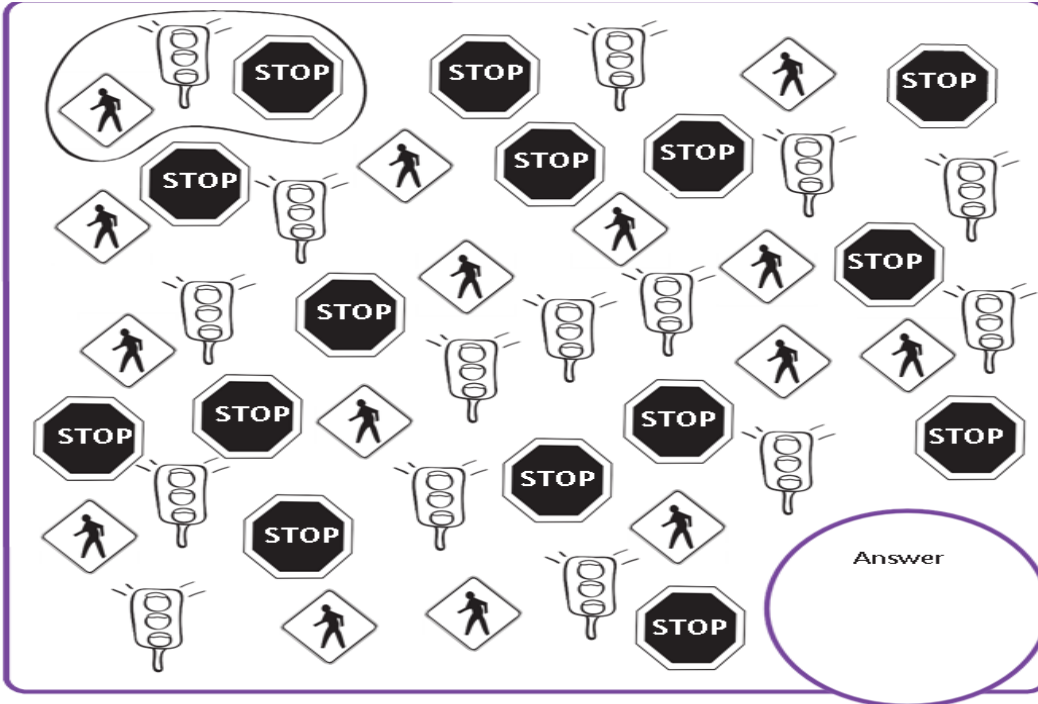

- Find out the cost of one litre of fuel added to your vehicle.
- Calculate the fuel expense approximately for a month in your home.
- Write a paragraph about the details of vehicle insurance and maintenance and expense for the same per year.

Fun Time

Intersection Mania : Counting signs.

How many intersections will the school bus go through on the way to school. **Each intersection has one traffic light and any two road signs.**

Grouping three items together, you will know a number of intersections

Science:

My Journey to School

A) On your journey to and from school you have passed a number of roads and traffic signs. In the boxes below draw as many signs that you can remember seeing and describe why they are placed at the location and their meaning. One example has been done for you.

Sign	Location and meaning
	<p>This sign is on the back of our school bus parked in the school entrance. It tells road users that there are children on board and to be careful particularly when it is parked and they are getting on or off.</p>

B) There are a number of different types of signs seen on our roads. All these signs can be found on our daily trips to and from school.

See if you can connect the correct sign with its meaning. Good Luck!

1) **Tourist Attraction**

2) **School Bus**

3) **Cycle Route Ahead**

4) **Pedestrian Crossing**

5) **Roundabout**

6) **Mandatory Speed Limit**

7) **Route Sign**

8) **Flammable Liquids**

9) **Hospital**

10) **No Through Road**

11) **Traffic lights not in use**

12) **Bend in Road**

Social:

- Create a poster depicting the awareness on road safety
- Prepare a route map from your home to school.

- *We expect our Aksharites to emerge out as **Safety conscious individuals**. The children can best comprehend the value of safety only when parents inculcate the significance of it in their child. The interdisciplinary Holiday Homework will surely have positive impact on your child as a part of growing up of children in creating the awareness that will follow your children throughout their lifetime.*
- *So, it's a humble request to parents to take a positive interest, as the child learns a lot by doing. In fact, your guidelines will add an element of fun and excitement to the project work.*

Happy Holidays!
